

Nick Rogers (International Motorcycle Manufacturers Association)  
**Motorcycle Accident in-Depth Study (MAIDS).**

Umesh Shankar (NHTSA)  
**Where are the increases in motorcycle rider fatalities?**

James Ouellet (Head Protection Research Laboratory)  
**How the timing of motorcycle accident investigation biases research sampling and data outcome.**

Prof. Dr. Horst Ecker (Vienna University of Technology)  
**Motorcycle accidents – Case studies and what to learn from them.**

Robert J. Rowe (Irwin Broh & Associates)  
**Using a household panel study methodology to identify rider demographics.**

Narelle Haworth (Center for Accident Research Road Safety)  
**Crashes of older Australian riders.**

David Chen (Cal State Fullerton)  
**Self Assessment measures to increase motor skills in aging motorcyclists.**

Dr. Sheryl Williams (Motorcycle Safety Foundation)  
**A comparison of factors leading to satisfaction and learning among Basic RiderCourse participants: implications for course design.**

Jean-Pierre Belmonte (Promocycle Foundation)  
**Task Analysis for intensive braking of a motorcycle in a straight line.**

Jean-Pierre Belmonte (Promocycle Foundation)  
**Performance evaluation for various braking systems of street motorcycles.**

Terry Smith, Ph. D. (Dynamic Research, Inc.)  
**A three dimensional analysis of riding posture on three different styles of motorcycles.**

Donovan Green (NHTSA)  
**A comparison of stopping distance performance for motorcycles equipped with ABS, CBS and standard hydraulic brake systems.**

Stephanie Binder (NHTSA)  
**The effects of motor vehicle fleet daytime running lights (DRLs) on motorcycle conspicuity.**

Jim Ouellet (Head Protection Research Laboratory)  
**Rider training and evasive action performance in Thailand and Los Angeles motorcycle accident studies.**

Karl Shuman (Keva Engineering)

**Do I brake or do I swerve – motorcyclist crash avoidance maneuvering.**

Christine Mulvihill (Monash University Accident Research Centre)

**A comparison of hazard perception and response in car drivers and motorcyclists.**

Liz de Rome (LdeR Consulting, Motorcycle Council of New South Wales)

**Linking the silos: planning for motorcycle safety.**

Dr. Dale Andrea (Road Safety Dept., VIC Roads Australia)

**Development of a strategic motorcycle safety program in Victoria, Australia.**

Bjorn Lund (Norwegian Public Roads Administration)

**New rider training system in Norway.**

Anthony Sharp (Institute of Highway Incorporated Engineers (IHIE))

**IHIE guidelines for motorcycling – improving safety through engineering and integration.**

Dr. Ray Ochs (Motorcycle Safety Foundation)

**Rider Education and Training System (RETS) Update.**

Jan Marie Lambert (Wisconsin Community Services, Inc.)

**Cycle Safety: taming the road safety rally – using community collaboration to promote motorcycle safety.**

Dick Garrett (United States Air Force)

**Motorcycle rider mentor program – a low tech, targeted approach to reducing motorcycle accident causal factors.**

Antti Korteso

**Group work and problem-based learning in experienced rider training.**

Dr. Dale Andrea (Road Safety Dept., VIC Roads)

**Multimedia road safety resource for motorcyclists riding the Great-Ocean-Road.**

Patricia Ellison Potter (NHTSA)

**Interventions to increase licensure rates among unlicensed motorcycle owners in Maryland.**

Ken Morgan for Raynald Marchand (Canada Safety Council)

**Checking on standards – A Canadian perspective.**

Dr. Sheryl Williams (Motorcycle Safety Foundation)

**Rider training program evaluation: Theory, practice, and a proposed model.**

Dr. Ray Ochs (Motorcycle Safety Foundation)

**What are the competencies and abilities of an MSF certified RiderCoach Trainer?**

David Thom (Collision & Injury Dynamics)

**Comparison tests of motorcycle helmets qualified to different international standards.**

Jim Ouellet (Head Protection Research Laboratory)

**Estimating motorcycle helmet effectiveness.**

David Thom for Remy Willinger (University of Strasbourg)

**Helmet optimization against biomechanical criteria.**

Liz de Rome (LdeR Consulting, Motorcycle Council of New South Wales)

**Motorcycle protective clothing: function or fashion?**

Robert J. Rowe (Irwin Broh & Associates)

**Using a household panel study methodology to focus on riding and alcohol.**

Michael Jordan (NHTSA)

**Drinking, riding and prevention: A focus group study.**

Scott McKnight (Pacific Institute for Research and Evaluation)

**Riders helping riders: an alcohol peer intervention program for motorcyclists combined with Methodologies for determining the effects of alcohol impairment on motorcycle operation.**

Jim Ouellet (Head Protection Research Laboratory)

**The effect of blood alcohol concentration on motorcycle crash characteristics.**
